Very good book, considering the age of the material I was impressed with how relevant and thought provoking it was. After her studies with Troward, she founded a New Thought school called The School of the Builders in approximately 1915 in New York City, running it herself until 1925.[1][4][16] She then founded another New Thought school in Los Angeles, after which she traveled throughout North America lecturing on mental science and New Thought for 35 years, as well as giving radio broadcasts.If the item details above aren't accurate or complete, we want to know about it. I don't like listening to audios much...this audio had my attention through out it.The best transformational audio I've ever heard...the narrator was superb in everyway. There were also quite a few mispronunciations that were distracting. God gives the idea; man works it out upon the physical plane." "Repeat the word 'joy' secretly, persistently and emphatically. Visualizing is the great secret of success.""Visualizing without a will sufficiently steady to inhibit every thought and feeling contrary to your pictured thought would be useless."The joyous assurance with which you make your picture is the very powerful magnet of Faith, and nothing can obliterate it." "Your mental picture is Universal Mind specifically exercising its inherent powers of initiative and selection." " "Ask and ye shall receive." The trunk of the tree cannot fail to provide for its branches." "The Power that brought you into existence did so for the purpose of expressing its limitless supply through you." "You have the great Power. This is not a mere fancy, but a truth." "Absolute dominion is yours when you have sufficient self-mastery to conquer the negative tendency of thoughts and actions." "All disappointments and failures are the result of endeavoring to think one thing and produce another." "Sometimes you are unable to recognize it is there. About the Author Genevieve Behrend was a French-born author and teacher of Mental Science, a New Thought discipline created by Thomas Troward. Personally, I will now completely avoid all books performed by Jason McCoy. And this is easy to understand but there is much still to discern. My mind is the center of the divine! This book shares the great tool that I intend to use for change within my life, now. Love listening to the book but I truly wish it would have been narrated by a woman since it was written by a woman. Thought is not good or bad; it is Creative Action and always takes physical form." "So be yourself and enjoy Life in your own Divine way. I felt out of breath just listening to it at times. The book is excellent but I struggled with the narrative. Which can be good. Your picture is as certain to come true, in your physical world, as the sun is to shine." "By holding your picture in a cheerful frame of mind, you shut out all thoughts that would disperse or dissipate its spiritual nucleus." "You concentrate energy of a particular kind for a particular purpose. a jewel.----- --The thing you most need is to consistently be your best self." "The Joy of Living comes from within. But this book really bridges it all. Keep this in mind and let specific details take care of themselves, so this book is life changing. No one can give it to you. The Narrator is an easy listen. Sorry, but I had to turn this off after a few minutes. It was rushed, no time to take a breath, which is a shame because it is a beautiful book and should have been narrated by a woman, to depict the calm confident manner I associate with Genevieve Behrend. If you examine this book and the working of the bible you will see that they go hand in hand. I'm shocked by the 4.6 overall rating and 294 ratings. I wasn't thrilled with the narrator, too American accent and reading too fast. This type of material cannot be simply read. You fulfill them. He said you could do the same if you would only believe in yourself." "A great idea is valueless unless accompanied by physical action. I loved the content of the book, but the monotone nature of the narrated made it hard to catch sometimes. Therefore, make the effort to obtain the things which will bring joy, provided that your desires are in accord with the Joy of Living." "All study and meditation should be without strain or tension." "Whatever you think and feel yourself to be, the Creative Spirit of Life is bound to faithfully reproduce in a correspond Almost every line a truth... This narrator is often used for cheesy motivational audiobooks. I don't think I can listen to it even if I slowed it down This is a great book I've enjoyed reading but this narration is so fast you can't understand anything. Thank you for all of your work into the mind me and many others appreciate it. After reading this book and putting it to use, it feels as if I'm living in complete joy. He reads WAY WAY too fast which makes the contents of the book's content indigestible. Plus Jason reads it fast. It was almost like reader never took a breathe. Joy is a state of consciousness, and consciousness is purely mental." "Only believe, and all things are possible unto you." "Your desire to be your best expands your faith into the faith of the Universe which knows no failure, and has brought you into conscious realization that you are not a victim of the universe, but a part of it." "If you think your thought is powerful, your thought is powerful." "Ask, believing you have already received, and you shall receive." "Your steady recognition of Thought Possession causes the thought to concentrate, to condense, to project itself, and to assume physical form." "Free your consciousness entirely of all thoughts and feelings other than: Love and Unity with all Humanity. I from the heart would recommend it to everyone....it will truly open Your eyes...giving you tools to make the life you so much desire to manifest. I could not stand to listen to this audio for more than 10 minutes. The repetition sets up a quality of vibration which causes the joy germ to expand and project itself until your whole being is filled with joy. He reads without any emotion and stress. I found it to be very informative but need to study it more. The narrator is simply reading the book. He doesn't even slow down between paragraphs. Sounds more like a computer reading the book in 150bps and forget that a human will listen to this. Interested concept of implementing your desires. None the less I have high praise for anything that helps one focus to find and make their dreams come true, as long as it makes sense and is easy to understand. Never mention what you are doing to anyone." "Never forget that every physical thing, whether for you or against you, was a sustained thought before it was a thing. The narration was clear and the voice was pleasant. He also sounds much like a robot that has no inflection or need to take a simple breath. But I prefer a slightly slower pace. However I wanted to beg the narrator to take a breath. The narrator is absolutely awful to the point that I stopped listening to it after less than 10 minutes! It's a real shame as I was looking forward to this audio book but turns out to be a waste of money as cannot listen to this speedy shouting narrator..... Do not fear to be your true self, for everything you want, wants you." "Since Divine life is operating in me, I must be Divinely inhabited, and the Divine in me must operate just as it operates upon the Universal plane." "In every word is a power germ which expands projecting itself in the direction your word indicates, and ultimately develops into physical expression." "Everyone knows that joy comes from within. Not gonna lie I've been pretty skeptical about all the new age stuff I use to take in. Think and it shall be done.Sugar science and new age stuff, but otherwise I enjoyed it. The content of this book might have been really worthy if such a pity... Infinte substance is manifesting in you right now." "As you grow in the comprehension that your being, your individuality, is God particularizing Himself, you naturally develop Divine tendencies." "Make a mental picture of your business increasing, instead of a picture of losing it." "The more enthusiasn and faith you put into your picture, the more quickly it will come into visible form. Therefore, make the effort to obtain the things which will bring joy, provided that your desires are in accord with the Joy of Living." "All study and meditation should be without strain or tension." "Whatever you think and feel yourself to be, the Creative Spirit of Life is bound to faithfully reproduce in a corresponding reaction." "Since Order is Heaven's first law, and visualization places things in their natural order, then it must be a heavenly thing to visualize." "In visualizing - making a mental picture - you are not endeavoring to change the laws of Nature. Better to simply read the book yourself than listen to this narratn. Otherwise, you miss the key points, and after a while, you simply nod off and fall asleep.
